**Day Two– Door County**

**Belgian Roadside Chapels**- Religious tradition brought from the old world where Belgian settlers built a family chapel to worship because the wilderness and crude roads kept them from getting to the larger churches. (14 Chapels throughout Southern Door)

**Ephraim** – Located on the Green Bay side of the county, was the first religious settlement in Door County. A community of 40 Norwegian Moravians established the first church and first school (in 1853) on the peninsula.

**Mission Grille** (Sister Bay) - Step back in time & relax in a turn-of-the-century church transformed into a gracious setting for contemporary American cuisine. Unique dining areas showcase the sanctuary, choir loft, enclosed veranda, a lovely 3-level outdoor patio & two beautiful private dining rooms.

**Tannenbaum Holiday Shop** (Sister Bay) – This 100 year old white church with its prominent bell tower was transformed into a unique shop where you can find not only gifts for the Christmas season but gifts and collectibles for celebrations year 'round.

**Stavekirke** – (Washington Island) The Stavekirke ("Church of Staves") is modeled on an original Scandinavian design, and was hand-built by "islanders".

**Björklunden** (Baileys Harbor) - Handcrafted Stave Church from 1939, including 41 frescoes and carved-wood furnishings.

**Door County Fish Boil** (County wide)- The fish boil was started at the Viking Grill in Ellison Bay, Wisconsin when they decided to duplicate the trout boils held by local churches and civic groups but instead use the local whitefish.
